

## 17 COMPANIES OHIO GUARDSMEN ON DUTY SOMEWHERE IN OHIO

New Regiment Ordered Recruited in Eastern Ohio, Where Few Guards Are Located.

### TROOPS DISTRIBUTED AT STRATEGIC POINTS

No Information as to Distribution Will Be Printed.

By Associated Press Dispatch.  
Columbus, O., March 28.—Although a strict censorship on military information was in effect at the offices of Governor Cox and Adjutant General Wood, it is known that at least seven companies of the Ohio National Guard are on duty today at strategic points in the state.

In addition, it has been reported that all other Ohio troops have been notified to be in readiness for a call to arms.

The guardsmen called out yesterday by Governor Cox will not be mustered into the Federal service at the present time.

Troops called yesterday include the following:

Three infantry and one machine gun company, First Regiment Cincinnati; two infantry and one machine gun company, Fourth Regiment, Columbus; four infantry companies of the Fifth Regiment, Cleveland; one infantry company, Portsmouth; one infantry company, Ironton; one infantry company, Marietta; one infantry, Gallipolis; two infantry, Zanesville.

No information as to the distribution of the troops is to be permitted by the censorship.

The second Ohio Field Hospital Corps and the Second Field Amulance Corps arrived in Columbus this morning, having been mustered out of the Federal service yesterday at Fort Sheridan, Illinois, just fifteen minutes before the War Department directed that demobilization of state troops be stopped.

The First and Third Ohio Field Hospital Corps and the First Amulance Company also were mustered out yesterday before the orders were received.

Ohio troops at Fort Sheridan still retained in the Federal service include the First Battalion Signal Corps and First Battalion and Company B Engineers.

The entire Sixth Regiment is still in the Federal service at Fort Riley, Kansas, and the Third Ohio at Fort Benjamin Harrison, Indiana.

### NEW OHIO REGIMENT WILL BE RECRUITED

By Associated Press Dispatch.  
Columbus, O., March 28.—Adjutant General Wood today issued a call for another regiment of infantry for the Ohio National Guard at once. It is hoped to recruit the new regiment in eastern Ohio.

"Here is a splendid opportunity for those eastern Ohio counties that have no National Guard companies to show their patriotism," declared Adjutant

General Wood in discussing the call for the additional regiment.

At present there are eight regiments and one battalion of infantry in Ohio. A new regiment probably would be known as the Ninth Infantry.

"Somewhere in Ohio," was the only information available today as to the disposition of Ohio troops called out late yesterday by Governor Cox for use in guarding strategic points.

## WILMINGTON BOY GUNNER

By Associated Press Dispatch.

WILMINGTON, O., MARCH 28.—DAN J. BABB, SON OF EUGENE BABB, OF THIS CITY, HAS BEEN CHOSEN TO MAN THE GUNS OF THE ST. LOUIS, AMERICAN VESSEL NOW IN FOREIGN WATERS.

WORD TO THIS EFFECT WAS RECEIVED BY MR. BABB'S PARENTS TODAY.

## FRENCH ARE TURNING THE SOUTHERN WING OF HINDENBURG LINE

Great Coucy Forest Cleared of Enemy by Hand-to-hand Fighting.

### STRUGGLE RAGES FOR ESSIGNY-BENAY HILLS

Only One More Natural Barrier Between French and Laon.

By Associated Press Dispatch.

The southern wing of the retreating German army is slowly recoiling along a ten mile front under the furious onslaughts of the French.

The first section of the great Coucy-St. Gobain forests has been completely cleared of the invaders, and French troops are now face to face with the last natural barrier lying between them and Laon—the plateau of St. Gobain.

This densely wooded plateau lies between the Oise and the Ailette and is about 10,000 acres in extent, rising from about 80 to 200 feet in height.

No railways or highroads traverse it, but an important railroad sweeps round its southern border and runs north to Chauny.

This road is in the hands of the

## VILLISTAS DEFEATED

By Associated Press Dispatch.

Juarez, Mexico, March 28.—Villa forces were defeated at Mapula, twenty miles south of Chihuahua City, yesterday by Carranza troops in command of General Francisco Murguía, according to unofficial but reliable reports received here today from Chihuahua City. All reports of fighting within the city were denied.

The defeat of Villa's troops at Mapula was believed here to have prevented Villa from carrying out his announced plan of attacking Chihuahua City today.

## REGULARS ON WAY TO OHIO

By Associated Press Dispatch.

Columbus, O., March 28.—Adjutant General Wood this afternoon wired Governor Cox from Chicago, where he is in conference with Major General Thomas H. Barry, of the United States Army, that Federal troops will be sent to Ohio to relieve the Ohio National Guard units that were called out by the Governor late yesterday.

General Wood's telegram stated that as soon as the Federal troops arrived, they would immediately relieve the state troops.

Officials took the information to mean that the Third and Sixth Ohio infantry regiments, which are in the Federal service, are to be sent to Ohio.

## BRITISH GRAB DUTCH BOATS

French up to within about three miles of Anizy, which is ten miles west of Laon.

No change has taken place in the neighborhood of St. Quentin, where the Germans are still making desperate efforts to wrest from the French the Essigny-Benay plateau, undisputed possession of which will, according to military critics, render the fall of the city inevitable.

Sporadic fighting has occurred in several of the other war theaters, but nothing to indicate the commencement of major operations.

## MORE GUARDS ARE CALLED

By Associated Press Dispatch.

Washington, March 28.—Dutch steamships in British ports were reported here today to have been confiscated by the British government.

The information reached here from a grain house, which sold the Dutch government the grain aboard many of the vessels. It could not be confirmed at the Netherlands Legation.

About forty Dutch ships are now in ports belonging to Great Britain, and a fleet of at least fifteen grain carrying vessels is understood to be on its way from a Holland port to the United States.

Many of the Dutch ships now in British ports have been detained from six to eight weeks.

## THESE SIX GENERALS WILL COMMAND IN THE NEW ARMY ARRANGEMENT

The decentralization of command involved in the recent important military changes in the United States army is to become effective on May 1. The commanding officers of the six military departments after that date will be:

Eastern department, Major General J. Franklin Bell, now commanding the western department.

Northeastern department (new) Brigadier General Clarence R. Edwards, now commanding the troops in the Panama canal zone.

Southeastern department (new), Major General Leonard Wood, now commanding the eastern department.

Central department, Major General Thomas H. Barry, its present commander.

Southern department, Major General John J. Pershing, its present commander.

Western department, Major General Hunter Liggett, now in command of the Philippine department.

The command of the Philippine department, which is being relinquished by Major General Liggett, probably will devolve upon Brigadier General Charles J. Bailey. The command of the troops in the canal zone will devolve on Brigadier General Edward H. Plummer, now on the Mexican border.

No. 1 in the accompanying picture is General Liggett; No. 2, General Bell; No. 3, General Barry; No. 4, General Edwards; No. 5, General Wood; No. 6, General Pershing.

## TO ADVERTISE FOR BIG ARMY

By Associated Press Dispatch.

Washington, March 28.—Preliminary arrangements for co-ordination of all government advertising of national scope through a national advertising advisory board were made today at the War and Navy Departments.

Details will be worked out through Director Gifford of the National Defense Council.

The purpose of the board, the services of which have been offered to the government without cost, is to determine the advertising medium to be employed in campaigns to secure soldiers, sailors or workmen of any kind in the present emergency.

As a measure of preparedness in the event that a big volunteer army is raised, copies of all posters and literature used for this purpose in England are now enroute from London.

## MORE GUARDS ARE CALLED

By Associated Press Dispatch.

Washington, March 28.—Four additional regiments of the National Guard were called into the Federal service today by the War Department.

They are the First West Virginia, Seventy-fourth New York, Second Connecticut and Second New Jersey infantry regiments.

## CONGRESSIONAL LEADERS ARE CONSIDERING WAR PLANS; 50,000 GUARDS SUMMONED

By Associated Press Dispatch.

Washington, March 28.—Congressional leaders today gave informal consideration to the legislative program to meet the national emergency, but it was emphasized that definite steps to that end would not be taken until after President Wilson delivers his address to Congress soon after it convenes in extraordinary session next Monday.

Meantime, steps to put the Nation in a state of readiness to meet any eventuality went ahead actively.

More than 15,000 National Guardsmen were under orders today to remain in the Federal service for police duty in their respective states.

Altogether, about 50,000 guardsmen have been called out for this purpose. Congressional leaders are counting on having to deal with nothing but measures relating to the international crisis during the special session.

Spokesmen for temperance and prohibition organizations have declared their intention of not pressing for action any anti-liquor legislation; and although the Federal woman suffrage amendments will be introduced, there appears to be little hope for it.

Among Democrats, Republicans and Independents of the House today, there was a belief that the House

would be organized along partisan lines, despite Republican Leader Mann's proposal for a non-partisan organization.

### HEARING IS ON

By Associated Press Dispatch.

Columbus, O., March 28.—Hearing of the application of the Geiger Jones Security Company, of Canton, for a license under the Ohio Blue Sky law was resumed today in the office of Governor Cox before State Bank Superintendent Berg and the Governor. The hearing is expected to last several days.

## MORE FOURTH BOYS CALLED

By Associated Press Dispatch.

Columbus, O., Mar. 28.—Company C, Infantry, Fourth Regiment, at London, and a detachment of the sanitary troops of the Fourth Regiment at Delaware, were called out today by the Adjutant General's office.

## GOVERNOR OF DANISH WEST INDIES NAMED

Washington, March 28.—Rear Admiral James H. Oliver, Chief of Naval Intelligence, today was named by Secretary Daniels as Governor of the Danish West Indies, which are to be taken over Saturday by the United States.

The ceremonies of transfer will take place at St. Thomas and in Washington on the same day.

Secretary McAdoo will deliver on that day to the Danish Minister the Government's warrant for \$25,000,000 in payment for the islands.

Important fortifications will be constructed and the islands used as a naval base for further protection of the Panama Canal and for general military purposes.

## RUSS SOCIAL PARTY URGES NO BACK STEP

(Associated Press Cable.)

Petrograd, via London, March 28.—

A group of Social Democrats has put out a declaration, which, so far as can be determined, fairly represents the attitude of the majority of the party toward the government.

The declaration, which is signed by half a dozen locally prominent names, favors a vigorous prosecution of the war, leaving the demands of the social democracy in abeyance until the country is safe from the danger of a return of the monarchy.

It says in part: "The victory of the Central Empires would bring ruin and reinstate the old regime. It is necessary now, more than ever before, to continue the struggle against the last bulwark of monarchial control in Europe. "The necessary democratic control of the work of the new government can be achieved best by participation in the temporary administration of representatives of the workmen's democracy and a wide and stable organization of the popular forces and the army."

## CALL BACK

By Associated Press Dispatch.

Washington, March 28.—Orders were issued today by the War Department calling all National Guard units that have partially demobilized back into the federal service.

The order applies also to the troops demobilized within the last few days, which the Department understood to be still in the federal service when its previous orders were issued. There are about six regiments in this class which will be mobilized again.

## GIVES NAMES TO GOVERNMENT

By Associated Press Dispatch.

Columbus, O., March 28.—Z. B. Campbell, chairman of the Ohio Civil Service Commission, today offered to furnish Secretary of War Baker an eligible list of persons having passed the Ohio civil service examinations, that the government may have the benefit of the list in selecting men for special government service in preparation for war.

# OHIO WESLEYAN BANQUET AND GLEE CLUB CONCERT

Social Event and Entertainment  
Extraordinary—Local Members  
of University Alumni Success-  
fully Carry Through Elaborate  
Program.

Splendid Concert of Glee Club  
Concludes Enjoyable Day of  
Greeting and Fraternization.

Right royally the Ohio Wesleyan  
University held sway in Washington  
Court House Tuesday night.

For a few hours, all too short, the  
atmosphere was charged with college  
interest which extended itself beyond  
the alumni and student body to the  
outside public. Even with other high-  
ly successful O. W. U. banquets in  
memory it can hardly be denied that  
the 1917 reunion of the O. W. U. Pay-  
ette county association, in its multi-  
plied features, achieved the high wa-  
ter mark and in brilliant banquet,  
moving picture reproductions and  
splendid Glee Club concert, left the  
impression of the moulding influence  
of the university.

There was only one criticism—and  
that voiced by the president of the as-  
sociation, Mr. D. S. Craig, when he  
said: "We are embarrassed by the  
abundance of riches."

So it proved. The appetites of the  
banqueters were just whetted for  
speech making when the summons  
came for the pictures and the guests  
rushed from the delightful reproductions  
of O. W. U. scenes and actual  
college life, with many well known  
faces found in student antics on the  
screen, to the concert.

But, there is spice in variety, and  
everyone enjoyed everything that  
was doing.

The Banquet.  
The banquet, held at Grace church,  
was notably a brilliant and beautiful  
affair, with nothing left undone to  
round out its complete success.

Over a hundred assembled, enjoy-  
ing a brief hour of renewing college  
associations before going to the base-  
ment dining hall.

Here the scarlet and black of the  
university had been employed with  
consummate skill and no more radi-  
ant and effective decoration could  
have been chosen. Lighted only by  
hundreds of scarlet candles, which in  
their sparkling crystal sticks formed  
lanes of twinkling brilliancy either  
side of scarlet and black center de-  
coration down the long tables, the effect  
was as striking as it was beautiful.  
Each candle stick was tied with a  
scarlet tulle bow and garlands of smil-  
ax linked the candles together.

When, later, the electricity was  
turned on, light streamed through  
scarlet shades which bathed the  
scene in a wonderful glow.

The tables formed an immense hol-  
low square, with the university pres-  
ident, Dr. John Hoffman, and Mrs.  
Hoffman, guests of honor, at the head.  
With them were seated the president,  
Mr. D. S. Craig and Mrs. Craig; Prof.  
and Mrs. W. W. Davies, Prof.  
McClain and Rev. Cherrington.

The Glee Club was seated on mass

and frequently, during a banquet hour,  
all sparkle and pleasure, rose to make  
the hall ring with popular college me-  
lodies.

The delicious courses were served  
by High School girls, the prettiest of  
waitresses, under the direction of the  
caterers, Mrs. Severs.

The college colors were prettily  
introduced in each course.

There was time for no after dinner  
speeches but that made by Presi-  
dent Hoffman. He was introduced by  
the organization president, Mr. Craig,  
who possesses the happy gift of al-  
ways saying just the right thing in  
the right way, and said a great deal  
in a few words.

The new university president left  
an impression of a personality both  
forceful and delightful in his brief  
and most pleasing address. A fluent  
speaker and with the interests of the  
university intertwined with the ear-  
nest purpose of training youth to the  
highest life work, enabling the finest  
adjustment of powers to the vast  
sweep of present day calls, the talk  
teemed with inspiration.

Dr. Hoffman touched briefly upon  
the O. W. U. million dollar campaign  
and the crying needs of the univer-  
sity in order to be fully equipped for  
its immense possibilities for useful-  
ness.

There was distinctive interest in  
letters from Rev. George Carpenter,  
pastor of the local Presbyterian  
church back in the eighties, and Mrs.  
Carpenter, read by Mr. Craig. These  
messages carried the guests back to  
the very early days of university life  
and gave glimpses much enjoyed. Rev.  
and Mrs. Carpenter, who are now liv-  
ing in Columbus, had hoped to attend.

Mrs. Carpenter's message read:  
"Would a few words of ancient his-  
tory be offensive? They might in-  
terest some of the Alumnae gathered  
at your banquet."

In 1847 I was graduated from the  
"Worthington Female Seminary"—  
one of the very first institutions for  
the higher education of women in the  
State of Ohio. It had been develop-  
ed by the Ohio Conference of the M.  
E. Church, from a private school for  
girls in the same village (founded and  
by Miss Sarepta Marsh)—  
and she was installed the first Prin-  
cipal. This was in 1838.

After her marriage to the Rev.  
Henry Baker, the Conference secured  
two ladies from the "East"—the  
Misses Harriet and Evelyn Smith.  
Miss Evelyn was the first teacher of  
the piano in all that region.

The sisters remained but one year  
—as Miss Harriet, too, was soon car-  
ried off by a Methodist minister and  
married.

They were followed in 1842 by the  
Rev. Alexander Nelson and wife—un-  
der whom a "Course" was mapped  
out, and the first graduate received  
her diploma in 1845. The next year  
1846 another lone graduate received  
hers. In 1847 the class had increas-  
ed to three, and Mr. Nelson placed  
his name on my diploma—as well as  
on that of two others.

In the course of time, the Nelsons  
were followed by Mrs. Porter (also  
an Eastern lady) and her daughter,  
Miss Susie, who was afterwards mar-  
ried to the Rev. Wm. D. Godman,  
whose name heads the list of gradu-  
ates from the Ohio Wesleyan Uni-  
versity.

All these years the funds for this  
institution were secured by the Rev.  
Uriah Heath, a very popular and suc-  
cessful "Agent," traveling here and  
there over the entire state.

In the course of time, however the  
Conference moved the institution  
from Worthington to Delaware,  
changing its name to that of the "De-  
laware Female Seminary."

Afterward it became the "Delaware  
Female College," and at length was  
absorbed in the University itself, and  
now there are plenty of Alumnae as  
well as Alumni.

Mr. Carpenter said in part:  
"I was graduated in 1851. My class  
had only five in it as I remember, a

very few had been graduated in the  
years before) of my class John Van  
Deman and my self are left, Van De-  
man is living in Delaware It is his  
native town. My professors were  
President, Thompson and Professor,  
Johnson, Marich, Mrs. Cave Williams  
I trust you will have a very en-  
joyable time.

Remember me, as an Alumnae to  
all.

The O. W. U. has grown wonder-  
fully since my day there.

Reluctantly the feast of heart and  
intellect was brought to a close in  
the election of Supt. McClain as pres-  
ident of the county organization for  
the coming year and Mr. Jos. I. Tag-  
gart, secretary. Both of these men  
have been active in promoting the  
O. W. U. reunions and to their untir-  
ing efforts was due a large share of  
praise for the success of Tuesday  
night's banquet.

Secretary Thornburg showed the  
O. W. U. films in the auditorium. A  
number of outsiders enjoyed the pic-  
tures, although there was added in-  
terest to the initiated.

Glee Club Concert.  
There could have been no more  
perfect after math to the banquet  
than the glee club concert, given in  
the High School Auditorium.

It was a beautiful concert, pervad-  
ed with the college spirit, yet char-  
acterized by pleasing dignity. The  
audience was large and highly appre-  
ciative, almost wearing the boys out  
in repeated encores.

The uniform excellence of the  
choral work and the fine timbre of  
the Varsity Quartet, made special ap-  
peal to the audience.

The 1917 club presents an unusu-  
ally fine looking body of young men,  
numbering twenty-six last night. It  
is a chorus of splendid volume, and  
balance and wonderfully responsive  
to the leader, Paul S. Craig, of this  
city, in prompt attack and finish. The  
club proves a high standard of mus-  
ical efficiency.

The program was throughout varied  
and most attractive. One of the most  
beautiful numbers was "Carry Me  
Back to Old Virginia," sung by R.  
Hartley, and club. Mr. Hartley's  
tenor voice is very rich and sympa-  
thetic.

The quartet, composed of I. H.  
Booher, first tenor; R. Hartley, sec-  
ond; G. W. Secrest, baritone and W.  
A. Rudy, bass, is one of the best ever  
with an O. W. U. club, and deserved  
all the applause it received.

Mr. Booher has a very unusual high  
tenor of great sweetness and beauty.  
His tenor solos were features of the  
program.

The bass, Mr. Rudy, also left a fa-  
vorable impression in solo work.

The quartet sang with professional  
ease and the entire club was unusu-  
ally free from suggestions of ama-  
teurism.

The instrumental quartet, Robert  
Harley, Frank Griffin, Ralph Thomp-  
son and Kenyon Vance, was unusu-  
ally popular, and was brought back  
again and again.

Mr. Burgess added a very enter-  
taining number to the program in O.  
Henry's amusing story "The Hand-  
book of Hymns."

The club was fortunate in its pian-  
ist, Mr. H. A. Bradley, whose work  
as accompanist was excellent. He  
also played a brilliant solo.

More than usual local interest at-  
tended the concert in that the club  
contained two Washington boys, Paul  
S. Craig, leader, and Robert A. Craig.

## PURCHASING HORSES FOR THE ITALIANS

A representative of the Italian gov-  
ernment was in the city Tuesday look-  
ing for remounts for the Italian army.  
He found very few.

At first the Italian government pur-  
chased liberally of American horses,  
whether they were up to the highest  
standard or not, but during the past  
few months the buyers have been  
very particular as to what they buy.

### CARD OF THANKS.

We wish to extend our heartfelt  
thanks to our friends for their many  
kindnesses to us in the recent loss of  
our beloved mother, Mrs. F. E. House-  
man; also for the beautiful floral of-  
ferings.

MARIE HOUSEMAN

## CLERK ALL RUN DOWN

Restored To Health By Vinol.  
Shelbyville, Ind.,—"I am a clerk in  
a hotel and was all run down, no  
energy, my blood was poor and my  
face covered with pimples. I got so  
weak I had to put up an awful fight  
to keep at work. After taking many  
other remedies without benefit Vinol  
has restored my health and strength."  
—Roy F. Bird.

For all rundown, weak, nervous  
conditions of men and women, noth-  
ing equals Vinol which contains beef  
and cod liver peptones, iron and man-  
ganese peptones and glycerophos-  
phates. Try it on our guarantee.

Good mixed feeding hay sold by the  
bale. H. R. Rodecker.

## A Safe Food For Baby

Thompson's Food (Peptonized) is  
peculiarly adapted to infant feeding  
as it is most nearly like mother's  
milk. It contains all the elements so  
necessary to the proper growth of  
the infant and is the only brand of  
food containing in combination the  
food values of pure sweet milk,  
select barley malt and the elements  
of beef juice.

If you want your baby to become  
strong, healthy, full of life and vigor,  
feed it Thompson's Food (Pepton-  
ized). Ready for use by simply add-  
ing water.

We suggest that you try a 50c  
package with our guarantee of  
satisfaction.

## In Social Circles

A Cecilian recital has a magical of to draw out musical devotees and response to a limited number of in- tations extended the Federated h rooms were filled Tuesday after- noon, when the last recital of the was presented.

The program was a delight, offer- ing a number of genuine concert at- tention and held the guests in rivet- ing attention.

Miss Edith H. Gardner, incoming president, presided and gave cordial welcome to the guests.

Mrs. Nina Craig sketched the club history to the entertainment of those present.

Miss Gardner followed with a brief report of Cecilian future purposes.

The bars of the limited study club have been thrown down and the club hopes to add to Washington's social life by extending a general invitation to all women who enjoy to become associate members.

The privilege of attending all meetings and any concerts under club auspices.

The Cecilians has already launch- ed the "Community Sing," and or- ganized under Miss Light's supervi- sion the "Junior Cecilians."

The new "child" represented by twenty or more girls who have effect- ed the Junior organization, were about the afternoons guests and made the initial bow to the audience.

Miss Gardner, who always sings with rare comprehension of the com- position, opened the musical program with a brilliant rendering of "O for a Vow of the Moorlands"—Benj. Whelpley.

Mrs. Morna Blessing Chapman dis- tinguished musicianship and technique in a piano solo—Etude No. 3, Wollenhaupt, extremely brillian- t in style.

Miss Ada Woodward sang with charming manner and the liquid tones of her soprano very sweet, a Cadman ballad, "Hear a Thrush at Eve."

Miss Mable Briggs delighted her audience with her piano solo, Im- perceptible 28 No. 3 Reinhold;—a very difficult number meriting high praise.

A beautiful violin solo, La Cin- cini—was admirably played by the Mazie Kessler.

Mrs. Winnie Wilson Shoop charmed her listeners as she never fails to do, with her sympathetic interpretations of "Four Songs from the Hills"—London Ronald. The songs effect- ively carried out the theme of their program.

(a) Away in the Hill there was a Stream; (b) Come Home my thoughts from the Hill; (c) The Dawn; (d) A Little Winding Road.

Miss Lillian Davis, whose musical preparation was followed with inter- est through her study at Wilson Col- lege, kindled fresh admiration in the exhibition of her remarkable pianistic powers in her superb playing of the Capriccio Mendelssohn. She is really an artist, and brings from the key board the inspiration of the composer, with facile and brilliant

technique and a caressing delicacy of touch.

It is seldom that a feminine audi- ence persists in an encore but Miss Davis was so spontaneously recalled that she gave a second number hard- ly less brilliant than the first.

A very beautiful quartet with obli- gato sol, "Winken, Blinken and Nodding"—Nevin, was sung with fine harmony and shading by Mesdames Shoop, Lillie G. Davis, Mary G. Bar- rett and Ida Pine; Mrs. Lona G. Hughes's brilliant high soprano ris- ing splendidly to the demands of the obligato, Mrs. Margaret Stitt and Miss Davis played the difficult accom- paniment.

Misses Briggs and Davis were ac- companists for the soloists.

Mr. E. E. Bush, the popular chorist- er of the McNair Presbyterian church was given a delightful surprise by the choir in honor of his birthday.

Mrs. Bush was in the secret and the home was hospitably enfeate for the guests.

The evening was made pleasurable with sociability and music and warm congratulations extended to the host.

In recognition of his efficient service the choir presented Mr. Bush with a Bible. Mr. Will Craig made a felici- tous little presentation speech.

Mrs. Will Craig and Mrs. Carey assisted Mrs. Bush in serving refreshments.

## WAR EXCITEMENT INTENSE IN EAST

War excitement is intense in the east, all preparations are being rush- ed and New York is beginning to as- sume a war-like appearance, accord- ing to Mr. W. M. Campbell who re- turned Wednesday morning from a business visit in New York and Phil- adelphia.

Mr. Campbell states that every one is expecting war and arranging mat- ters accordingly. All important bridges, building, terminal, docks, railroad stations, and in fact every- thing of importance is under heavy guard, and many men of big affairs are accompanied by armed guards as they go about their business.

On every hand the war spirit is manifest, due in part to the fact that New York is on the waterfront and contains a large foreign element, some of whom are supposed to be in the pay of the German Government and dangerous in the extreme.

## FOR INTOXICATION

James Cole, colored, was taken in- to custody, Tuesday night, for being intoxicated. He was placed in the cooler to sober up.

## FEAR MENACE TO HEALTH IN THE CITY WATER

Members of Board of Health Urge Everyone to Boil Water Until Further Notice.

BELIEVE NEW DAM HAS CAUSED CONTAMINATION

Creek Water Alleged to Have Flowed, Unfiltered, Into the Wells.

Boil all city water until further notice!

This is the admonition coming from members of the City Board of Health who are now conducting a rigid investigation to ascertain if the city water was not contaminated during the recent high waters when creek water is alleged to have flowed, unfiltered, into some of the wells at the pumping station.

The trouble is said to be due to the

new dam constructed across the creek just below the point where the wells of the Washington Water Com- pany are located, resulting in the wa- ter being backed up into the wells.

Foreign substance of a most start- ling nature has come from the city water mains, and when this came to the attention of members of Board of Health, they immediately started an investigation, and decided that the only safe plan until they have a report on samples of water sent for analysis, would be for all citizens to boil the water and take no chance on the likelihood of serious contamination.

Samples of water have been col- lected from various parts of the city and forwarded to the State Health Board for immediate analysis, and upon the request of the Board of Health an engineer from the State Health Board will be in this city Thursday and make a thorough in- vestigation.

If it is found that the water has been contaminated as result of the dam constructed, radical steps will be taken by the Health Board, including the removal of the newly constructed dam, which is located far south of the former dam, and holds a large basin of water.

During the recent high waters there was a noticeable muddy cast to the city water, and some of the for- eign substance found in the water in- dicated contamination of the most dangerous nature, and some citizens

are not only boiling the water used but are taking further precaution by straining it as it comes from the hy- drant.

Boil all water until further notice!

## AUTOS CRASH ON N. NORTH STREET

Two automobiles, one coming down North street and the other out Tem- ple street, came together with con- siderable force at the Temple-North street intersection about ten o'clock Wednesday morning, and both ma- chines were damaged.

All intersections on North street are dangerous under present methods of running automobiles, and to pre- vent such crashes parties attempting to cross the intersections are requir- ed to exercise a great deal of cau- tion to prevent accident.

More automobile collisions have oc- curred on North street at the Court, Temple and Market street crossings than any other place else in the city.

## The Scarlet Letter

By NATHANIEL HAWTHORNE

It is the most pathetic story of human love and passion ever told. For sixty years Haw- thorne's famous work in book form and on the stage, has driven home into thousands of hearts, its tale of justice gone wrong. If you have read The Scarlet Letter you will surely want to see the picturization of this American novel. Every stu- dent of American literature should see it.

## Count Von Bernstorff

Later information as to the activities of Count Bernstorff, while serving as Germany's Ambassador at Washington, is coming to light which is very appreciably lessening the good opinion the people of the United States entertained for him.

Facts now being brought to public attention indicate, strongly, that the German Ambassador was not as honest in his conduct and in his statements as we had been giving him credit for.

Newspaper men with whom Bernstorff was particularly sociable and agreeable during his stay in Washington, have been comparing notes since his departure and find that the information given out to them did not always tally.

It seems clear that Bernstorff was deliberately pursuing a course intended and calculated to create friction between the government officials and the press of the country.

Bernstorff's connection with the Mexican plot was the eye opener to the people and since the disclosures in that affair the developments have come thick and fast.

American people are sorry to learn that Bernstorff was a disciple of the dishonest Prussian diplomacy. We all rather liked Bernstorff and believed that he was conducting himself very well under the most trying conditions.

We wanted to and did believe that he was honest. He was the most popular of all the Kaiser's representatives and when he left we thought his record was a clean one.

But one by one the props are being knocked from under his good reputation and reluctantly we are being forced to realize that he was all the time working for Prussia, hesitating at nothing.

## The Assembly Quits

The wind-up of the General Assembly of the state—the wrangling over technicalities and the deadlock which marked the closing hours of the session preventing the enactment of some formal legislation notably that providing for the payment of the salaries of the legislators themselves—is strong evidence that the session was not concluded any, too soon.

The Assembly members are to be congratulated on what they did do fully as much as for what it did not do and the same is equally true as to the objections which are attaching to the work of the law making body.

The new tax law, enacted in a rush to "bridge over" the necessity arising from the passing out of existence of the Parrett-Whittemore law via the unconstitutionality route, is not considered permanent. Indeed it was hardly intended as more than a temporary measure to "do" until a real tax law could be worked out and enacted. That law is good so far as it goes. Experience may prove it, however, to be of more real permanent merit than its framers claim for it.

The session just closed will not take place among the really important sessions of the law making body of the state.

It was not a session marked by the enactment of any considerable amount of constructive legislation and, aside from emergencies which were, in a manner, provided for the quantity of legislation enacted was not great. Aside from the last hours the Assembly session was not one to inspire admiration nor invite censure.

It was common place—decidedly.

## Ill Advised Movement

The pacifists are planning to have a monster parade in Washington City on the day congress convenes in extraordinary session to hear the message of President Wilson recommending legislative action which seems to the chief executive of the land necessary to meet the conditions existing.

No matter how patriotic those leaders may be we cannot view the proposal other than as a mistake—a monumental mistake.

This is no time to demonstrate that there is any considerable opposition to the plans of President Wilson. The larger the demonstration is the more unfortunate it will be and the more harm it will do.

The best thing that can happen, if the leaders do not see their mistake in time to call off the demonstration, is for it to be a flat failure—the flatter the better.

The real purpose of the ultra pacifist leaders will be misunderstood and misinterpreted. Enemies of the national government will see in such a demonstration encouragement to continue their aggressions. Sometimes over enthusiasm in laboring for a great cause produces results directly contrary to those intended.

It is not necessary to assemble all the opposition on parade in Washington when Congress meets. It can do no good and may do vast harm.

If it does nothing more than make the work of President Wilson more burdensome that's enough to condemn it.

The chief executive of the nation has enough burdens already without being annoyed and harassed by parading suffragettes and pacifists.

## Poetry For Today

### MARE LIBERUM.

You dare to say with perjured lips:  
"We fight to make the ocean free"—  
You, whose black trail of butchered ships  
Bestrews the bed of every sea  
Where German submarines have wrought  
Their horrors! Have you never thought  
What you call freedom men call piracy?

Unnumbered ghosts that haunt the wave  
Where you have murdered cry you down,  
And seamen whom you would not save  
Weave now in weed-grown depths a crown  
Of shame for your imperious head.  
A dark memorial of the dead.  
Women and children whom you left to drown.

Nay, not till thieves are set to guard  
The gold, and corsairs called to keep  
O'er peaceful commerce watch the ward,  
And wolves to herd the helpless sheep,  
Shall men and women look to thee,  
Thou ruthless Old Man of the Sea,  
To safeguard law and freedom on the deep!

In nobler breeds we put our trust:  
The nations in whose sacred lore  
The "ought" stands out above the "must,"  
And honor rules in peace and war,  
With these we hold in soul and heart.  
With these we choose our lot and part  
Till liberty is safe on sea and shore.  
—Henry Van Dyke.

## CINCY UNIVERSITY MAY FOLLOW SUIT

By Associated Press Dispatch.  
Cincinnati, O., March 28.—Whether resources of the University of Cincinnati should be placed at the disposal of the government as already has been done by Harvard college and the University of Pittsburgh, is being considered by a special committee of the university faculty of which Prof. William Hammond Parker is chairman.

The intelligence committee of the College Association on Preparedness which has headquarters at Pittsburgh, communicated with President Dabney on the subject. "We are giving this matter our most earnest thought but of course we are not free to give away our resources as would a privately owned college," said Dr. Dabney. A movement also is on foot at the university to form a hospital unit among the medical students.

THE DIVISION IS GOING TO BE CLOSE.

—Berryman in Washington Star.

## BANISH THE "DIE WACHT AM RHINE"

Cleveland, O., March 28.—"Die Wacht am Rhine" has been banished from the Cleveland public schools. Formerly the anthem was part of the German language work and not infrequently was sung in class.

None of Germany's patriotic songs is sung in the German classes in the Cleveland public schools, according to a statement by Herman J. Lensner, supervisor of German. When asked about "Deutschland ueber Alles," Mr. Lensner, who is proud of his American citizenship, said: "That song never has been sung in the schools here and never will be."

## OFFERS TO RETURN AN OLD SWORD

By Associated Press Dispatch.  
Columbus, O., March 28.—Adjutant General Wood is in receipt of a letter from W. H. Poynter, president of the Bank of Dover, Arkansas, telling of the capture of a sword from an Ohio officer in the battle of Mark's Mill, Arkansas, April 29, 1864, by "Johnnies" which he wishes to return to its rightful owner.

The Confederate veteran in his letter to the Ohio adjutant general says the sword was captured by himself and comrades. The federal forces, he says, were commanded by Lieutenant Colonel F. M. Drake and that 400 of the Seventy-Seventh Ohio Infantry participated in the battle. Records in the adjutant general's office show that most of the men made up this company came from towns along the Ohio river, east of Portsmouth. "I will appreciate your efforts to put me in touch with any of the surviving officers of the command," says Mr. Poynter's letter. "I will accept the story of the capture as identification of the party." General Wood is making efforts to locate the owner.

## GUARDS ARE EMPLOYED TO WATCH FACTORIES

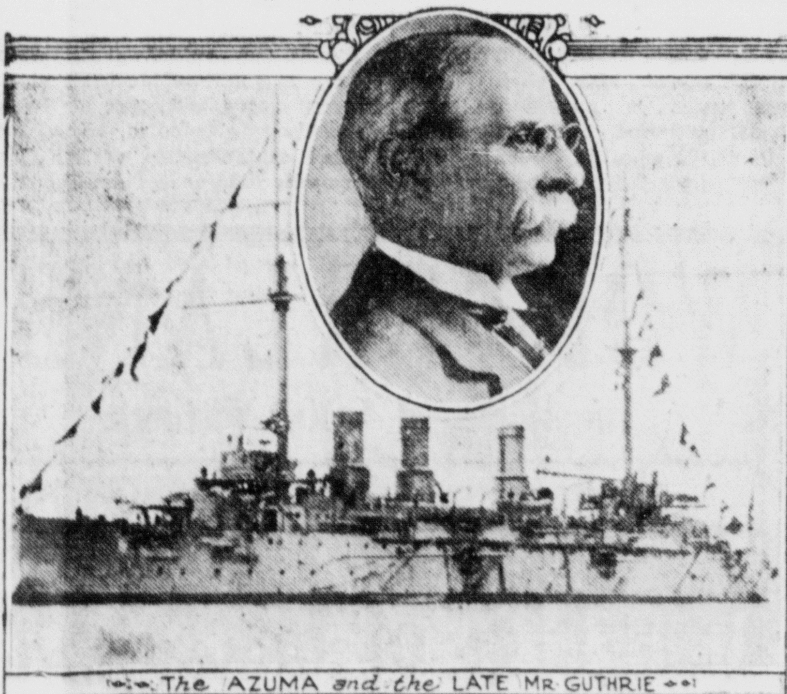

By Associated Press Dispatch.  
Cleveland, O., March 28.—A large number of Ohio National Guardsmen who recently returned home from service on the Mexican border are being employed by local munitions factories as guards. The men are not anxious for inside jobs after nearly nine months out of doors. One large company has twenty-six former troopers acting as guards.

## A NEW MILITARY UNIT IS PLANNED

By Associated Press Dispatch.  
Cincinnati, March 28.—Formation of a new military unit at the University of Cincinnati, expected to number a full company of 100 men, is being discussed. About 50 students already have asked to be enrolled in such a company.

SAFETY RAZOR BLADES sharpened by Motor Machine. Old blades sharpened perfectly. Prices 25, 35 and 40c per dozen. Terms cash. George E. Dunn, Sabina, Ohio. 64 112

## Ambassador's Body Comes Home On Big Japanese Cruiser Azuma

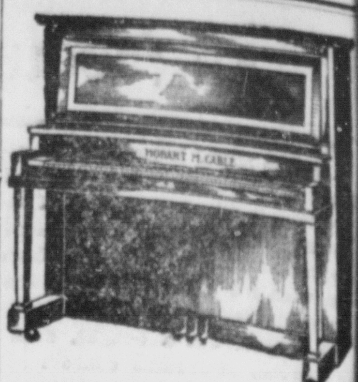

As a special mark of honor and manifestations of national friendship the Japanese first class cruiser Azuma was detailed to bear across the Pacific the body of the late American ambassador to Japan, Mr. Guthrie, who died recently at his post.

Post Wheeler, charge d'affaires at Tokyo, was instructed by the state department to express to the Japanese government the gratitude of the United States to the many marks of respect shown the memory of the late Ambassador Guthrie and to accept formally the offer of a warship to bring the body of the ambassador home. The message said:

"You may say to the Japanese government that the government and people of the United States are deeply touched by the many thoughtful and attentive marks of respect which have been shown to the memory of Mr. Guthrie and the many acts of kindness which have been extended to the bereaved wife. Mr. Guthrie's death is a loss to both countries, for his services as ambassador were exceptional in promoting closer friendship between them.

"The additional courtesy shown by the imperial government in placing at the disposal of this government a warship to convey the remains of Mr.

DALE ON THE ALLEY

# HALF HUNDRED MEN ENROLLED AT GREENFIELD

Work of Recruiting New Company Is Moving Rapidly—Mass Meeting Called for Thursday Night.

Major Rell G. Allen was in Greenfield Tuesday night, and found deep interest aroused in the recruiting of a new military company in that city, and so far upwards of 50 men have signified their intention of enrolling.

The necessary papers for recruiting a full strength company have been placed in the hands of a recruiting officer named by Major Allen, and the work of recruiting is expected to meet with very satisfactory results during the next few days.

A mass meeting has been called for Thursday night, and this is expected to develop a number of new recruits.

Greenfield is displaying genuine patriotism in responding to the call for troops, and all surrounding territory is contributing men to the new company. Some experienced men will be chosen captain of the company and other officers selected accordingly, it is presumed.

Men in touch with the situation express the belief that the entire company may be raised by Saturday night of this week, or not later than next week.

# LANUM AGAIN MAKES RECORD

Oxford, O., March 28.—Robert Lanum, of Washington C. H., was the highest individual point winner in the inter-fraternity indoor track meet at Miami University recently, which was won by Delta Upsilon of which he is a member.

This is the second year that he has held this record, having greatly helped to win the meet for Delta Upsilon last year by his individual point winning.

This time he made nine points, taking first place in the 25-yard dash, second place in the 25-yard hurdles, third place in the 220 yards run, and

running on the relay team which took first place.

There were 112 men entered in the meet and competition for places was stronger than ever before in the inter-fraternity meets.

# WORKING ON NEW SERVICE STATION

Workmen are busy erecting the new structure on the lot formerly occupied by the Empire Theater to be used as a service or filling station by the Standard Oil Company, and the small structure will be completed within a short time.

The work of excavating for the large gasoline tank which is to be buried near the service station house will be pushed without delay, as well as constructing a concrete driveway across the corner of the lot so that machines may drive across from one street to the other, stopping for "gas" as they do so.

The rumor that the Kroger grocery people intended to occupy a building that was supposed to occupy part of the lot, has proven entirely groundless, as the entire front portion of the lot will be used for the filling station.

# SIX BUYERS FOR EACH HORSE OFFERED

There were six buyers for every horse offered in the monthly stock sales in this city Tuesday, according to one prominent horseman.

All good animals offered—and they were remarkably few, were speedily picked up at good prices, while the scrubs and common run of animals brought only fair prices and were little in demand.

Farmers are after good, sound animals to aid in cultivating their crops and other farm work, but are not wanting the scrubs as long as they can obtain the better class.

# CUT THIS OUT—It Is Worth Money.

DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Kidney Pills, and Foley Cathartic Tablets. Blackmer & Tanquary. Advt.

Pocahontas Coal.  
A. Thornton & Son.

# NOTICE To Ohio State Telephone Subscribers

The new Telephone Directories have arrived and are now being distributed.

Since the installation of the Automatic system the growth of this plant has been so great that it has become necessary to install additional equipment to take care of new subscribers.

In so doing it is necessary that a great many numbers be changed. It is therefore essential that everyone using the Automatic Telephone consult the directory and not rely upon their memory for telephone numbers.

In order to take care of the increased business in a more efficient manner the company has installed equipment so that it is now possible to dial 1511 for Bloomingburg, 1521 for Jeffersonville and 1531 for New Holland. Upon response of the operator give the number of the telephone desired, thus being connected with the aid of one operator instead of two as heretofore.

Should all the lines to the Exchange called be busy, the busy-buzz will be heard in the receiver, in which case hang up receiver and call again in a reasonable length of time.

Bloomingburg, Jeffersonville and New Holland subscribers desiring to call Washington C. H. subscribers upon response of operator give the number of telephone desired; the operator with the dial connects with the number desired.

The Ohio State Telephone Co.  
OSCAR ORR, Manager

# FINE LECTURE BY EXPLORER

Large Audience at Presbyterian Church Last Evening Enjoys Dr. Young's Instructive and Interesting Discourse.

Rev. S. Hall Young D. D. the Alaskan explorer, missionary, novelist and lecturer was in the city Tuesday, spending most of the time working on his newest book, and in the evening lectured to an audience that crowded the Presbyterian auditorium, which included some of Dr. Young's former students at Wooster, where he was for a number of years the Biblical Professor.

The story of his life as pictorially portrayed has been exceedingly eventful. Not only was he a pioneer missionary among the Indians, but in 1897 during the rush to Klondyke he went with the miners, pack upon his back, enduring all the hardships of the arduous journey, organizing churches everywhere, first at Dawson; then at Eagle, Rampart, Nome, Teller, Council, Fairbanks, Cleary, Cordova, Iditarod, Flat City, Ruby and other minor points. In addition he established hospitals and reading rooms, and is today probably the best known and best loved man in that fascinating portion of our land.

Not content with all this activity, his pen has produced through the years a succession of poems, short stories, scientific articles, and now more ambitious novels. He has promised to return in the Fall and deliver another lecture, which will be accorded a warm hearing by Washington C. H. citizens. His pictures are among the finest ever shown in Washington, and his descriptions, and recitation of descriptive poems wonderful.

# RAPID HEADWAY ON TRANSFER FILL

A B. & O. work train with a gang of 20 to 30 men is working early and late on the new transfer fill south of the Union Station, and within a few days will have completed the work, after which ballast will be applied.

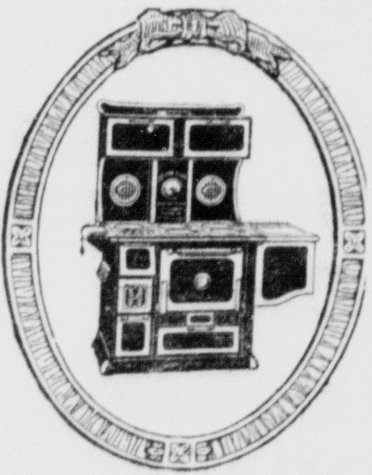

The fill, at its deepest point, will be about ten feet and the earth for the work is being obtained west of town.

A considerable fill is to be made north of the old platform location, and over the site of the old B. & O. station. Several car loads of earth have been dumped at this point, and blocks of cement and stone have been placed at the bottom of the fill to prevent washing when the creek is up.

# SEVEN SKILLED MECHANICS RESPOND

In this city seven skilled machinists and laborers have responded to the call of the government for work wherever needed, and their names have been sent to headquarters at Washington, D. C.

Mr. Howard C. Allen, at the postoffice, has charge of enrolling mechanics of all kinds who will take up work for Uncle Sam in case of emergency.

# A Cooking Machine

A machine does the same thing the same way every time—machine-like. So with the Copper-Clad Range. It can be depended upon to do perfect work every time. It cooks as good as it looks—and because of the Copper Lining outlasts two or three ordinary ranges.

The above is the cabinet style that sets up well off the floor on a special base.

As the piano is to the parlor, so is the Copper-Clad Range to the kitchen. It makes you "Range Happy."

Ford Hdw. Co.  
Demonstration This Week

# Millinery Showing

For the Week  
Everything New in Millinery  
We are subscribers to  
The Gage Weekly Service

WE show you Styles, Shapes, Colors and Trimmings only a few days later than Paris and New York. Gage Bros. & Co. are the largest manufacturers and importers of Millinery in the world. # GERMAN CHURCH CHANGES NAME

By Associated Press Dispatch.  
Gallion, O., March 28.—Because of the strained relations between Germany and the United States, the name of the German Methodist church here has been changed to Second Methodist.

# CALL EXCHANGES BY AUTOMATIC

Subscribers of the Ohio State Telephone Company, who are attached to the Washington exchange, may now ring Bloomingburg, Jeffersonville and New Holland by dialing certain numbers just as if they were ringing for some party of the Washington exchange.

Instead of calling for county operator by dialing 13, subscribers will be

expected to call the exchange automatically, and the operator of the exchange called will answer. Then give the number of the subscriber desired, and the operator of the subsidiary exchange will immediately ring the subscriber desired.

The new automatic device is a time saver, and works on the same principle as ringing an ordinary number, the "busy bee" telling when the line is busy. Subscribers are to wait a few moments before dialing a second time for the line if the "busy bee" is heard when the first call is made.

The numbers of the respective exchanges are:  
Bloomingburg 1511.

# DANCING AND JEWELS COST LIFE OF WOMAN MURDERED IN A HOTEL

Little by little the fifty detectives put to work on the murder case of Mrs. Elsie Lee Hilair, strangled and stripped of her jewels, worth \$2,500 in a big and busy New York hotel, uncovered the story of her strange double life.

It is the story of a woman who, after being happily married for sixteen years, began deceiving her husband systematically by slipping away from home afternoon after afternoon to indulge her passion for tangoing on Broadway and hurrying home as regularly to get his supper and appear a model of domesticity.

Dancing and diamonds, according to police, caused Mrs. Hilair's death.

# This Morning Found New Garments on Our Racks

Fresh From the Hands of the Style Creators

If you have not already made your selections there will be no better time than tomorrow—in the morning if possible.

¶ New suits and coats, of unusual style and charm, of such diversified types, that they cannot but excite admiration and comment. ::

¶ It has been well said that Style in dress is an essential part of the joy of living. :: ::

¶ It creates and imparts pleasure, fosters personality, reveals character and influences standards by its silent example. :: :: ::

¶ The garments we are showing this season have the elements of style built into them, which, not only measure up to your expectations, but surpass them, and the ready response of the women of this locality to our invitation to make early selections, is ample evidence that the stamp of approval has been placed on them. :: :: :: ::

¶ The timely arrival of this new collection, has placed us in position to supply you instantly with a handsome suit or coat, correct in style, perfect in tailoring, and a little different from the usual garment types. :: :: :: ::

# ASK ADVANCE

By Associated Press Dispatch.

Columbus, O., March 28.—President John Moore of Ohio Miners received a telegram today from John P. White, international president of the United Mine Workers, calling an informal conference of miners and operators of Ohio, Indiana, Illinois and western Pennsylvania, to be held at Indianapolis, Indiana, April 5, for the purpose of considering the request of the mine workers of the four states for a ten per cent advance in salary.

Ohio miners and operators will meet in Columbus Friday, March 30, in joint session, at which time they will arrange to send conferees to the Indianapolis conference.

**SPANISH-AMERICAN WAR VETS EAGER**  
Some 50 men, including about 17 Spanish-American war veterans, met in Wilmington, Monday night, and discussed plans for recruiting a company of Guards in that city, and a committee was named to take the matter up with Adjutant General Wood, with a view to recruiting a company without further delay.

It is expected that a company can be recruited to full war strength within two weeks' time. Many of the Spanish-American war veterans will ask for enlistment.

# NO CHANGE IN ORGANIZATION

By Associated Press Dispatch.

Washington, March 28.—Hopes for a non-partisan organization of the House of Representatives at the special session next week was virtually abandoned today by Representative Mann, Republican leader in the last House and proponent of the plan.

After a conference with Speaker Clark, Democratic Leader Kitchen and Chairman Fitzgerald of the Appropriations Committee, Mr. Mann said he saw little hope for coalition.

"I will stand where I stood originally," he said, "but I think two tickets will be put into the field.

"I am willing to be the Republican candidate for Speaker if the Republicans want me to run, and I think I shall be the candidate, if one is named."

SHINE WITH SHINOLA AND SAVE

## ITALY WAS ANTICIPATING HUN. DRIVE

London, March 28.—A great Austro-German offensive on the Italian front is being freely predicted throughout Italy. Information reaching the Italian press from Switzerland has convinced the newspapers that such a campaign has been planned by the central powers for this spring.

Additional gains have been made by the French and British on the French front.

On the British center at several points Field Marshal Haig's men have pushed forward appreciably nearer the St. Quentin-Cambria road, occupying the villages of Longavesnes, Liermont and Equancourt, and in addition have recaptured from the Germans a position north of Beaumont-Lez-Cambrai, which the Germans took from them in an attack Monday night.

The gains of the French were made in the region to the south of La Fere, where they drove the Germans completely out of the lower forest of Coucy, and also captured the villages of Petit Barisis, Veruville and Concy La Ville, bringing the French line in this region to the western outskirts of the forest of St. Gobain and the upper forest of Coucy. In the Soissons sector further progress was made north of Neuville-Sur-Margival and northeast of Leuilly.

The German war office admits the capture by the British of the town of Roisel, about eleven miles northwest of St. Quentin, and the falling back of the German forces before the French at several points in the forest region south of La Fere, in order to avoid being outflanked.

Fighting at Verdun.

Violent artillery fighting in the region of Verdun and at various points in Belgium, notably near Dixmude, Steenstraete and Het Sas, has been in progress.

On the Russian front the Russians have been forced to fall back before the Germans south of Baranovichi, according to a statement of the Petrograd war office. In this fighting Berlin claims that more than 300 Russians were made prisoners and four machine guns and seven mine throwers were captured. Russian attacks near Lutsk in Volhynia and in Galicia were repulsed by the Teutonic allies, says Berlin.

Apparently a renewal of fighting in Roumania is indicated by the German official communication, which says the Russians have been prevented from carrying out an attack south of the Trotus valley.

In the Austro-Italian theater, along the Julian front, the Austrians made an attack in force between Dossio Fatti and Frigido and captured a section of Italian trenches on Hill 425. At all other places, however, the attack met with repulse, according to Rome.

About 400 yards of Teutonic allied trenches have been captured by the French near Cervagna crest in Serbian Macedonia, together with some 300 prisoners. A Bulgarian attack in the Cerna river bend in this region was repulsed.

## HARTMAN THEATER (COLUMBUS)

Thursday, Friday, Saturday and Sunday, April 5, 6, 7 and 8—Matinees daily except Thursday.

Lyman H. Howe's Travel Pictures.

On Thursday, Friday, Saturday and Sunday, April 5, 6, 7 and 8, opening Thursday night, and with two displays given daily thereafter, at the Hartman Theater, Columbus, the Lyman H. Howe Travel Pictures will fill their second annual engagement. These inimitable motion pictures have a place all their own in the hearts of movie fans, a place deserved by the substantial merits of the films, and by their beautiful and instructive qualities.

This season's program is genuinely more beautiful and interesting than any series of Howe pictures shown heretofore. As usual, the Howe camera men have visited little known parts of foreign lands to collect their material, with even more than usually successful results. Some of the loveliest of the pictures show out of the way spots in Norway, with hand-colored views of the mid-night sun, the flocks of this northern country, and many unusual pictures are shown here of herds of reindeer.

Hawaii is visited. A railroad journey takes audiences to some of the most beautiful spots in these beautiful islands. Of exceptional interest are the pictures taken at Waikiki Beach, where natives are shown engaged in their favorite pastime, surfing, a sport which is called the King of them all. Other thrilling views show the interior of the volcano of Kilauea, with its crater filled with boiling, seething molten lava. No such pictures ever before have been taken of the interior of an active volcano's crater.

The program includes also the usual generous and original amount of comedy films. A full orchestra accompanies each display.

The attraction at the Hartman the entire week of April 9th, with matinees given Wednesday and Saturday, will be that inimitable comedian Al Jolson, in "Robinson Crusoe, Jr."

## MAKE EVERY ACRE COUNT

(By American Press)

Columbus, March 28.—Governor Cox called on the people of Ohio to bend every effort to increase Ohio's food supply. His official proclamation urged that farmers, through intensive farming, develop every available acre for food production, and that city folk plant vacant lots and make gardens on every foot of unused land possible.

The governor says: "The banks are full of money. Credit is easy. Farmers can buy tractors on easy terms. There is no excuse for wasted lands. Every acre should count, and this spirit of conservation should take hold of the cities, as well as the country. Food supplies can be grown on vacant lots, gardens can be turned into use and those who can not render defense service can be of distinct value by simple husbandry. In the same proportion that a family contributes to its own necessities it will be serving the nation."

# Knickerbocker Forma-Tractor

## \$178.00

Patent Applied For

## KNICKERBOCKER FORMA-TRACTOR

## Converts Your Ford Into A Powerful Durable Tractor

**BRINGS WITHIN REACH OF EVERY FARM A GENUINE, ALL-PURPOSE, GUARANTEED, POWERFUL, LONG-LIVED TRACTOR.**

Does Work of Three Powerful Draft Horses; Costs Less Than One. Gives steady, powerful pull without intermittent rests. The days of inadequate and inefficient horse-power and old-fashioned equipment have passed. You can do all farm work requiring tractive power with a sturdy, reliable Tractor, thereby utilizing the power now standing idle in your shed.

**Multiplies Power Twelve-Fold.** By our powerful Gear Reduction of 44 to 1 we change speed into power, and the effort which carries you at twenty miles per hour on the road is harnessed and is made to equal the pull of twelve cars on your drawbar. This will pull three horse load, without any breaks—which equals the performance of four horses.

**Economy.** The Knickerbocker Forma-Tractor eats nothing off the land; the horse devours one-quarter of all he produces; and produce is worth money. Furthermore the horse has to be fed 365 days in the year, whether he is working or not, while the Knickerbocker Forma-Tractor eats only when delivering power, and can go without sleep indefinitely in times of emergency.

**No Chores With Knickerbocker Forma-Tractor.** The question of hired help on the farm is most important; horses require constant attention. The farm hand never has a holiday. With Tractor farming the Sunday and holiday are real days of rest for all.

**What It Will Do.** The Knickerbocker Forma-

Tractor will pull two 14 in. plows; mower; reaper; drill; roller; manure spreader; seeders; logs or any tractive work possible with three horses. The horse exerts a draw-bar pull of only one-tenth his weight under a steady load; the Knickerbocker Forma-Tractor its own weight plus one-half weight of car to which it is attached.

**Who Builds the Knickerbocker Forma-Tractor?** The Knickerbocker Motors, Inc., is not a new concern; they are successors of the Knickerbocker Motor Truck Mfg. Co., who have served the public with a liberal policy for the last ten years. Their responsibility and reputation are your GUARANTEE of fair dealing.

**High Engineering Authority Designs Knickerbocker Forma-Tractor.** Walter C. Guilder, designer of Knickerbocker Forma-Tractor, has never produced a failure. He designed and produced the first Garford trucks—also the Mack trucks of smaller sizes. The Knickerbocker Forma-Tractor is the crowning achievement of Mr. Guilder's concentrated effort along development lines, using the highly specialized power plants of automobiles as the open sesame to low-priced high-power tractive equipment so highly necessary today on the American farm.

**No Weight or Strain on Car.** The Knickerbocker Forma-Tractor carries the entire load and takes the side and torsional strain entirely from the frame of the car to which it is attached; pushes the car ahead of it, and the engine runs at same speed and has exactly the same work to do in pulling tractive load 1 1/2 to 3 miles per hour as when carrying passengers at twenty miles per hour.

## Do Your Plowing and Other Farm Work by Tractor

**Yours for \$178 Plus the Car You Now Own.** While particularly adapted for the Ford car, the Knickerbocker Forma-Tractor can be attached to any car by slight changes. If you could not afford a car for pleasure, you can now make use of such a power plant in your business, and quickly earn enough additional profit to cover the cost.

**Quickly Changed.** Knickerbocker Forma-Tractor furnishes the most power for the least expense, and can be changed in fifteen minutes from a powerful Tractor back to a swift automobile—by merely changing the wheels. You can work the Tractor all day, and go to town at night with style and speed by automobile at twenty miles per hour with the same power plant; only fifteen minutes necessary to complete transformation.

**Short Turn in Corners.** Designed with wheelbase of only 84 inches, whereby it can be turned completely around inside a circle of only 25 feet; this insures

getting into the corners; can go over soft ground or up grades where a team will not pull an empty wagon.

**Quickly Clamped to Your Car.** You do it yourself. Knickerbocker Forma-Tractor can be attached in a jiffy by use of a wrench, a jack and a wheel puller—without drilling holes; we furnish the wheel puller.

**Car Is Not Damaged or Changed in Any Way.** Every Ford owner can now obtain for \$178 a complete power farming unit that answers every Tractor requirement for preparing the soil; tending the crops; harvesting and hauling produce to market; and in addition he can have a pleasure car available for touring purposes. There are no changes made in the Ford or other car to which Knickerbocker Forma-Tractor is attached. Every part is utilized except rear wheels and rear fenders. Once the frame is attached to car it need never be removed. Remove Tractor wheels and replace pneumatic, tired wheels in fifteen minutes.

## Special Knickerbocker Forma-Tractor Features

**Light Weight with Great Power.** Knickerbocker Forma-Tractor weighs only 650 pounds, and delivers a pull at drawbar of 1200 pounds. The average steady drawbar pull of a horse is 150 pounds.

**Flexibility in Various Uses.** Can be used for farm, road, pleasure, hitched to any machine requiring tractive power; has all the flexibility of the horse in hitching to various uses, with none of the disadvantages. A Mechanical Horse.

**Anyone Can Run It.** Any boy or girl can do the work of two able-bodied men and three husky horses with the Knickerbocker Forma-Tractor Attachment and they like to run it; Knickerbocker Forma-Tractor has changed farming work from main strength to intelligence.

**Circulating Pump.** A belt driven, positive circulating pump is furnished as part of the regular equipment with Knickerbocker Forma-Tractors, thereby insuring abundant cooling under all conditions.

**Pivot Frame Bracket** is an exclusive feature of Knickerbocker Forma-Tractor. It enables the entire rear of complete unit to swing in line with the universal joint on car behind the transmission, thereby taking all strain from frame of car and throwing all twists and torsional strains on the Knickerbocker Forma-Tractor attachment.

**Self-Cleaning Gears.** These are of the roller pinion type, giving greatest tractive power with least lost motion in friction. Rollers revolve constantly and automatically remove all grit, mud or dirt accumulations.

**Detachable Cleats.** Cleats may be removed when road work demands; and replaced at pleasure. Sand lugs may be substituted when necessary.

**Specially Constructed Traction Wheels.** The traction wheels used with K-R are specially made of

extra size and width to endure the hardest possible service; they are welded and hot riveted. Not a nut or screw to loosen up. Will negotiate soft ground and mud where horses mire.

### SPECIFICATIONS

Pull at Drawbar—1200 pounds.  
Frame—Channel Steel.  
Ground Clearance—13 inches.  
Weight—650 pounds.  
Gear Ratio—44 to 1.  
Traction Cleats—1 1/2 in. removable.  
Traction Wheels—19 in. face; 42 in. at rim; 45 in. over cleats.  
Drive—Roller Pinion; self-cleaning; catches no dirt.  
Wheelbase—84 inches; will turn in 25 foot circle without backing and will get into any corner where a team can turn.  
Speed—1 1/2 to 3 miles per hour; extra set Pinions can be furnished for slight additional cost if desired, for trailing, speed 4 to 8 miles per hour.  
Circulating Pump—Furnished with each unit to insure perfect radiation under all conditions.  
Price—\$178 f. o. b. New York.

### WARRANTY

We warrant all new Knickerbocker Forma-Tractors to be free from defects in material and workmanship, and will furnish without charge, except for transportation, within one year from date of delivery to the original purchaser, new parts in exchange for defective parts upon return to us at our factory, carriers' charges prepaid, of such parts as are found on inspection by us to have been defective.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

If you have a bad taste in your mouth, tongue coated, appetite poor, lax, don't-care feeling, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like, and sleep like a baby. All druggists.

## HOW GOOD THAT MUSTEROLE FEELS!

It Gets to That Sore Spot Like Magic

A-ah! That's delicious relief for those sore muscles, those stiff joints, that lame back.

Musterole is a clean, white ointment, made with the oil of mustard and other home simples.

It does the work of the old-fashioned mustard plaster, minus the plaster and minus the blister!

You simply rub Musterole on the spot where the pain is—rub it on briskly—and usually the pain is gone.

No mess, no bother. Just comforting, soothing relief—first a gentle glow, then a delightful sense of coolness. And best of all, no blisters like the old-fashioned mustard plaster used to make.

Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet and colds of the chest (it often prevents pneumonia).

## Fertilize Your Oats

## Why?

**BECAUSE** Fertilizer starts the oats earlier in the season and they are more advanced and hardier.

**BECAUSE** the grain is plumper and better matured by the use of High Grade Fertilizer.

The farmer whose oats shade the ground before hot weather is sure of a big oats crop. Try it.

## FOLDING BERTH COMES AT LAST

From first youth up to extreme old age, travelers in sleeping cars have wrestled with the dilemma of how to undress and dress again without tapping their skulls on the lid of their mahogany sarcophagus. (Did the term "sore head" originate in a sleeping car?) Indeed, with some it has long been a question how to undress and dress at all. Portly old persons, who would never be suspected of agility as acrobats or contortionists, do disappear into these mysterious recesses presumably to take off their clothes and put them on again without cramps, dislocations or compound fractures. According to all the rules it ought to be impossible. But it is not.

Non-gymnastic travelers now rejoice to learn that some friend of itinerant humanity has invented a folding berth which permits the occupants to undress and dress while standing erect (if not too tall) in his berth. More marvelous still the inventor has also vouchsafed this blessing to occupants of the much maligned "upper."

Distinguished foreigners are proverbially amused or scandalized at our sleeping cars. We plain Americans have little time for either sentiment, too intent are we on getting into our shoes in the morning without having our feet stepped on by marching units of the washtub squad. But mindful of much ground and lofty tumbling required to get in and out of garments normally easy of ingress and egress we freely predict that this new contraption will be enormously popular. They cannot install it any too soon.—Boston Globe.

#### NOTICE OF ELECTION

Notice is hereby given by the Board of Education of Union township rural school district, Fayette county, Ohio, that a resolution has been passed by said board calling for a special election to be held at the usual voting precincts within said district on Saturday, April 7th, 1917, between the hours of five-thirty o'clock forenoon, and five-thirty o'clock afternoon, standard time, to consider the question of centralization of the schools within said district, and the question of issuing bonds in the sum of \$50,000, to defray the necessary expense incident to said centralization; and the qualified electors of said district at said special election will be given the opportunity of voting either,

"In favor of Centralization"

or,

"Against Centralization."

ALSO

"In favor of \$50,000, bond issue."

or,

"Against \$50,000, bond issue."

By order of the Board of Education of Union township, Rural School District, Fayette county, Ohio.

Dated March 26th, 1917.

A. W. CLOUSER, President.

R. R. MADDOX, Clerk.

O-S-R 12, Her. 72 to Apr. 6.

Discussion opened by J. W. Haigler.

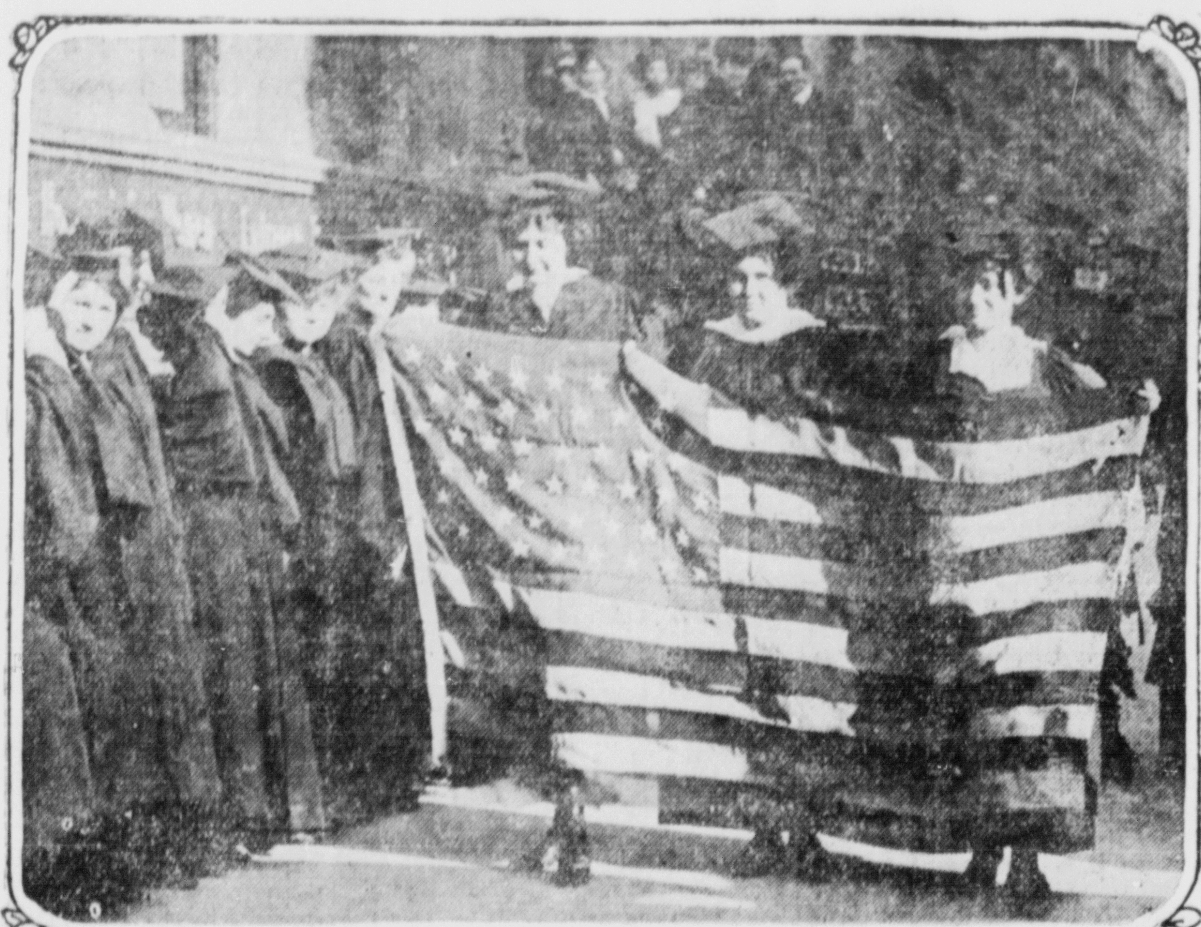

Chorus.

Address by Rev. H. K. Wishon.

The Sunday School in relation to the Church.

22 t5 COMMITTEE.

## WOMEN MEDICAL STUDENTS ARE READY IF THE NATION NEEDS THEIR HELP

WOMEN MEDICAL STUDENTS OFFER THEIR SERVICES TO NATION

Fifty young women students in the New York Medical College and Hospital For Women, Nos. 17-21 West One Hundred and First street, are ready to serve the country in peace or war. (Some of them are seen in the picture.) Their determination to outline definite plans of preparation for service was announced at

the exercises with which the college's new buildings, including clinics, dispensaries and library, were opened.

If the government should need them in war they will serve under the direction of the surgeon general of the United States army Dr. Cornelia C. Brandt, dean of the college, said. A representative has gone to Washington to consult Colonel Jef-

erson R. Kean, director general of military relief. At the exercises Mrs. Harriett Stanton Blatch talked on the "Mobilization of the Women Physicians."

The League For Women's Service announced that it had become necessary to increase classes in motor driving, cooking and other subjects which are offered under its direction.

day after treating. It will be necessary to set the drill to sow two more pecks to the acre than usual on account of the swollen condition of the oats. If they are resacked, the sacks should have been soaked in the same solution. Drills should also be thoroughly sprinkled with the solution.

#### MEETING FOR SHEEP MEN.

An important meeting relating to sheep and wool interests will be held at the Ohio State University on Tuesday, April 10, under the auspices of the Department of Animal Husbandry of the College of Agriculture at Columbus, the Agricultural Experiment Station at Wooster and the Ohio Association for Promoting Pure Bred Sheep. Some of the most prominent authorities in the United States will take part in the meeting. The enactment of a dog law will be considered. A specialist will give a demonstration of grading wool, showing how the farmer may derive a larger income from his sale. Important feeding and breeding topics will be discussed. At night a banquet and moving picture show relative to the sheep industry is planned. On Wednesday the annual sheep shearing competition will be held at the University. For programs, address the Department of Animal Husbandry, the Ohio State University, Columbus, Ohio.

#### SELECT NATIVE TREES.

Simplicity and naturalness should be the ideal in beautifying the rural home grounds. The trees that are native, such as the maples, oaks, elm, hickory, ashes and walnut, are best to use.

Naturalness, harmony and strength are not added to the home environment by the planting of such trees as the weeping willow, weeping mulberry, Irish juniper, umbrella, catalpa, Japanese maple, Camperdown elm, golden arbutus, purple plum, copper beeches and the like. These are oddities, unnatural or exotic and are not in place in a strictly American landscape.

#### KEROSENE LAMP CHEAPEST.

With kerosene at 9 cents a gallon and gasoline ranging in price between 20 and 25 cents a gallon, a kerosene lamp with a mantle makes a cheaper light than a gasoline lamp with a mantle, much cheaper even than the common flat or round wick lamp. Furthermore, the quality of light produced by the kerosene lamp using a mantle is greatly superior to the light of the common wick lamp. On a gallon of kerosene, a flat wick lamp develops 12 candle power for 58 hours; a common round-wick kerosene lamp develops 18 candle power for 26 hours; a kerosene lamp with mantle develops 60 candle power for 52 hours. A gasoline lamp using a mantle and burning gasoline under 16 pounds pressure will develop 150 candle power for 23 hours.
